<u>Amendments to the Specification</u>:

Figure 9 is a block diagram illustrating a telephone server component in one embodiment. The component receives a telephone number, dials that number through a telephone system, and coordinates the conducting of the telephone call. In block 901, the component retrieves the telephone number from the domain name. In block 902, the component places a telephone call to the telephone number via the telephone system. In block 903, the component generates a web page indicating the status of the telephone call. In block 904, the component sends a web page to the client computer that initiated the telephone call. In decision block 9045, if the telephone call is answered, then the component conducts a telephone call in block 9067, else the component sends a no answer message in block 906. The component then completes.
